- Actionable frameworks
- Multilingual: English, Italian, French, Norwegian
- Global perspective (portfolio + research)

Q1 2026 LEADERSHIP LAUNCH PACKAGE

Data-driven frameworks | Peer-reviewed research | Actionable implementation plans

THE PLATINUM WORKFORCE

The Fundamental Skills Reset Required for the AI Era—and the Ten Complementary Capabilities Defining Future Leadership

IDEAL FOR: Manufacturing executives, operations leaders, HR chiefs, workforce development professionals

TAKEAWAYS:

- Two Core Skills: Human-AI collaboration + interoperability mindset for the re-industrial transition
- Ten Complementary Capabilities: From eco-awareness to systems thinking teams must master
- Polycrisis Navigation: AI + sustainability + inequality + geopolitical instability compounding
- Reskilling at Scale: Practical strategies when institutions are unprepared

PROOF: Anthem Press 2025, Wiley bestseller *Augmented Lean*, decade of work with startups/governance/education, 2,000+ megaproject database

Augmented Worker (Human+)

WHAT YOUR TEAMS GET

Future-Fit Index

IDEAL FOR: CHROs, Chief Strategy Officers, transformation leaders needing executive-level assessment

WHAT IT IS:

- Quantitative AI-readiness assessment across five dimensions—can significantly reduce reliance on \$50K-100K consultant assessments

Socio-Technician

Three-Layer Training System

IDEAL FOR: Chief Learning Officers, VP L&D, Talent Development Directors executing upskilling programs

WHAT IT IS:

- 90-day upskilling curriculum for non-technical roles

Agentic AI Orchestrator

Platinum Worker Model

IDEAL FOR: VP Operations, COOs, Department Heads managing day-to-day workforce adaptation

WHAT IT IS:

- Role-by-role playbook for 47 job categories (augment vs. automate)

"Trond cut through the AI hype and gave our financial executives a clear decision framework."

— Mark Dreux, Association for Financial Technology Program Chair, USA

"Trond simply was the best speaker at the event."

— Cindy Yang, Project Manager, Management Events GmbH, Austria

THREE SIGNATURE KEYNOTES FOR 2025-2026

Data-driven frameworks | Peer-reviewed research | Actionable implementation plans

THE PLATINUM WORKFORCE

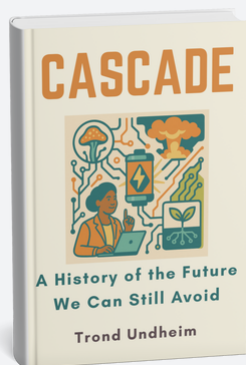

The Fundamental Skills Reset Required for the AI Era—and the Ten Complementary Capabilities Defining Future Leadership

IDEAL FOR: Manufacturing executives, operations leaders, HR chiefs, workforce development professionals

TAKEAWAYS:

- Two Core Skills: Human-AI collaboration + interoperability mindset for the re-industrial transition
- Ten Complementary Capabilities: From eco-awareness to systems thinking teams must master
- Polycrisis Navigation: AI + sustainability + inequality + geopolitical instability compounding
- Reskilling at Scale: Practical strategies when institutions are unprepared

PROOF: Anthem Press 2025, Wiley bestseller *Augmented Lean*, decade of work with startups/governance/education, 2,000+ megaproject database

CASCADING RISKS

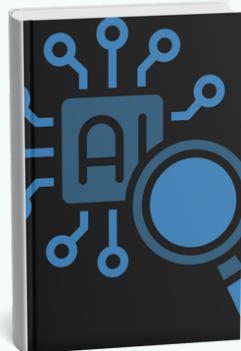

How AI, Climate, and Synthetic Biology Create Unprecedented Systemic Threats

IDEAL FOR: Risk management, corporate strategy, policy leaders, C-suite executives

TAKEAWAYS:

- The 36 Dyadic Risk Pathways: How paired risks (AI×climate, biotech×finance) cascade into civilization-level threats
- RAVINE Protection Framework: Six systematic defenses against cascading crises organizations can implement now
- Early Warning Indicators: Practical metrics executives can track to spot polycrisis scenarios before they materialize

PROOF: Stanford CISAC research, peer-reviewed 'Dyadic Risk Mechanisms' framework, *European Journal of Futures Research*

AI GOVERNANCE FOR EXECUTIVES

Navigating the Regulatory Landscape Without Becoming a Compliance Department

IDEAL FOR: Technology leaders, legal/compliance teams, innovation executives

TAKEAWAYS:

- Interoperability as Governance: Why technical standards shape AI deployment more effectively than legislation—and how to influence them
- The Co-Regulation Model: Pragmatic framework for navigating EU AI Act, US sectoral approach, and China's state-led governance simultaneously
- Strategic Positioning Playbook: Moving from compliance department to shaping emerging regulations before they're finalized

PROOF: Former European Commission National Expert, peer-reviewed AI governance research, Answer Labs CBO implementing frameworks

"Trond cut through the AI hype and gave our financial executives a clear decision framework."

— Mark Dreux, Association for Financial Technology Program Chair, USA

"Trond simply was the best speaker at the event."

— Cindy Yang, Project Manager, Management Events GmbH, Austria
